WILL ASK FOR ELECTION

THE PETTIS COUNTY LOCAL OPTION LEAGUE SO DECIDED THIS MORNING.

SAID THE VOTE WAS UNANIMIOUS

Will Present Petitions to City Council Next Monday Night—Possible to Have Election as Early as June 2.

Sedalia is to have an opportunity to pass upon the local option question at an early date, most likely in June.

At a meeting of the Pettis county Local Option league, held this morning, with twenty-one members present, it was unanimously decided to petition the city council to call a special election at the earliest date possible, to vote whether Sedalia shall banish her neary thirty saloons for the next four years, after their present licenses expire.

Rev. James Parsons, pastor of the First Congregational church, chairman of the league, presided, and the Rev. Dudley M. Clagett, pastor of the Broadway Presbyterian church, officiated as secretary, in the absence of the regular secretary.

The question was discussed in all of its bearings, and the unanimous sentiment was in favor of settling the question without further delay.

The council will hold its semi-monthly meeting next Monday night, when the petitions asking for the election will be presented.

According to law, the election must be called within forty days, provided the petitions presented contain the required number of signatures.

There can be no doubt on this score, as already more than twice as many signatures as are necessary have been obtained.

It is possible for the council to call an election as early as Monday, June 8, and it is likely the date will be fixed for some time before the middle of June, some think June 11.

The Pettis County league expects to have the co-operation of the State Anti-Saloon league in the coming battle, and it is said some of the ablest temperance advocates in the entire country will be heard during the campaign.

Of course, the "wets" will also put their best foot forward, and when the date is once fixed it is assured that there will be "something doing" in Sedalia every minute until the hour that the polls close.

SLIGHT CLUE TO ROBBER

There May Be an Arrest in the Hugschmidt Case.

Chief Boult today detailed police to work on the robbery of Mrs. Eugene Hugschmidt, 721 West Fourth street, who was tied and then robbed of \$75 while alone at her home late Saturday night.

Assistant Chief of Police Card made a personal investigation of the robbery Sunday, and immediately began working on the case. A slight clue was obtained today, and it is not improbable that an arrest will be made soon.

Mrs. Hugschmidt, in spite of the shock, recovered soon afterward. The money which she had in her stocking had been saved from her husband's salary, with the intention of keeping it until she had saved \$100, which she intended depositing in a bank.

After having both feet and hands securely tied, Mrs. Hugschmidt, whose hands were tied tightly about the wrists, by about a foot apart, was compelled to extract the sum of \$75 from her stocking, which she gave to the robber, who then left.

SNOW FELL THIS MORNING

It Began at 5:45 O'clock and Continued Five Minutes.

Fred Koyl, the street car motor-man, is authority for the statement that for a period of five minutes, shortly before 6 o'clock this morning, there was a light fall of snow in Sedalia.

Judge O. E. Parsons, who lives three miles south of the city, says the exact time when the "beautiful" began to fall was 5:45 o'clock a. m. He and Walter Reynolds were out feeding the stock at that hour. Judge Parsons corroborates Mr. Koyl as to the duration of the "storm," which

was just about five minutes. The snow melted as fast as it fell.

Fifteen minutes earlier, at 5:30 a. m., Judge Parsons says there was a beautiful rainbow visible in the west, although there had not been any rain during the night.

Ed J. Evans reports that at 6 o'clock this morning the mercury registered 36 degrees above zero, or only four degrees above freezing point.

Judge Gresham Seriously Ill.

Police Judge H. M. Gresham is critically ill with congestion of the lungs and heart trouble at his home on North Grand avenue. His condition today was pronounced alarming. Dr. W. C. Overstreet is attending him.

MAD KING 60 YEARS OLD

CELEBRATING ANNIVERSARY IN CASTLE FURSTENRIED PRISON.

HE HAS SPENT 38 YEARS THERE

Amuses Himself Year in and Year Out by Smashing Furniture, Breaking Up Statuary and Other Things.

Munich, Bavaria, April 27.—King Otto, the mad monarch of Bavaria, is today 60 years of age, and is celebrating the anniversary immersed in the gorgeous prison of Castle Furstenried, where he has spent thirty-eight years.

King Otto was born April 27, 1848, and succeeded his brother, Ludwig II, June 13, 1886, when that monarch committed suicide by drowning himself in the Starnberg lake. At that time he was insane, and the real monarch is Prince Luitpold, Otto's uncle, who rules Bavaria as regent.

Of King Otto's sixty years, thirty-eight have been passed as a madman, although for twenty-two years he has ostensibly occupied Bavaria's throne. Physicians are of the opinion that Otto's robust constitution will enable him to "reign" many more years.

Since 1878 Otto has not left the house and park of Castle Furstenried, which is on the outskirts of Munich.

Fifteen gorgeously appointed parlors, connected by mighty folding doors, are at the exclusive disposal of the royal madman, who amuses himself year in and year out by smashing furniture, breaking up statuary and smearing mud over paintings and wall hangings.

CANNON GRANTS "FAVOR"

Speaker Says Republican Members Can Discuss Print Paper Tariff.

Washington, April 27.—As a result of the representations of the American Newspaper Publishers' association, Speaker Cannon has agreed that the subject of the removal of the duty on wood pulp and print paper shall be discussed in a caucus of republican members to be held this week.

In a speech in the house today Minority Leader Williams said that the democratic filibuster would continue until the house decided to consider the campaign publicity bill, a bill putting wood pulp and print paper on the free list and an anti-injunction bill.

NOW ITS A FLOOD

Georgia, Recovered From Wind Devastation, Faces High Waters.

Atlanta, Ga., April 27.—The devastation by wind was followed today by reports of serious flood conditions in parts of Georgia. At Columbus the Chattahoochee river is rising at the rate of a foot an hour. The power house supplying the city with light is submerged and the factories located near the river have been forced to suspend. All the street cars are at a standstill. Many houses have been swept down the river.

A MILLION DOLLAR DAMAGE

Orchards in Colorado Suffer Tremendously From Frosts.

Denver, Colo., April 27.—The damage by frost during the past two nights to the orchards of the Arkansas and Grand valleys and other fruit growing regions of Colorado is estimated at \$1,000,000.

THE CANNON RAPE CASE

IT DID NOT GO TO TRIAL IN PETTIS COUNTY CRIMINAL COURT TODAY.

DELAY CAUSED BY TECHNICALITY

Applied for a Change of Venue When Arraigned Before Justice R. G. Leaming, but Refused, Hence the Action Today.

On a legal technicality, C. C. Kelly, attorney for Lloyd Cannon, a negro, charged with having ravished Miss Sophia Schwensen, a domestic employed by Fent Meriwether, also charged with having made an assault with intent to ravish the same victim, today secured a continuance in the famous rape case before Judge Hoffman in the circuit court.

The case was set for trial this morning, and all the witnesses appeared to testify. Shortly after the opening of court, the defendant, through his attorney, withdrew his plea of not guilty and filed a motion to quash the indictment.

In the motion Mr. Kelly stated that Cannon had been given no legal preliminary examination, for at the time set for the preliminary examination he filed a motion before the presiding justice of the peace for a change of venue, contending that a fair and impartial hearing could not be had before that particular justice.

Judge Leaming, the presiding judge, refused to grant the change of venue, and Mr. Kelly refused to take part in the preliminary, neither placing any of the defendant's witnesses on the stand nor questioning any of the state's witnesses.

Judge Hoffman sustained the motion to quash the information on the ground that the defendant was entitled to a change of venue, and in accordance the court remanded the prisoner to the custody of the sheriff until such time as the prosecuting attorney could hold a preliminary examination.

Cannon, as charged in the information, ravished Miss Schwensen at the home of Fent Meriwether on Sept. 26, last. At the examination it developed that on Oct. 14 Cannon had attempted another assault with the same intent.

Cannon, after committing the crime, left Sedalia and for several weeks evaded arrest, being finally located in Kansas, where he was arrested and returned to Sedalia.

WHERE IS MR. M. A. NEWTON?

And Who Is to Pay \$500 Debts It Is Alleged That He Owes?

M. A. Newton, owner and manager of a general poultry commission house at 307-309 West Main street, is alleged to have left the city, leaving an indebtedness in excess of \$500. No one appears to know where he has gone.

Newton came to Sedalia less than a month ago. He opened up his business in the store room adjoining Henry Laupheimer's hide house. At the beginning he paid a better price, by a small margin, for eggs, poultry, etc., than his competitors, and naturally he secured the good will of farmers who were in the habit of sending their produce to Sedalia for sale.

Newton made cash payments at first, and contracted for large shipments on ten days' time payment. Securing the shipments, he is said to have disposed of the poultry and skipped.

BROTHER WEDS SISTER

They Have Been Married Eight Years and Have Children.

Cleveland, Ohio, April 27.—So that their babies might not be taken from them, August Reschke and his wife, who is also his sister, swore stoutly in the probate court that the wife before her marriage was not Augusta Reschke, but Lena Roebuck.

As the court closed a grueling examination it was developed from both that Lena Roebuck is a myth, and that the husband and wife are really brother and sister. Their marriage is illegal because of the consanguinity law, and Probate Judge Haddar, acting with the Associated Charities, ordered the children taken away.

The couple have been married eight years. When they were babies the

brother and sister were separated, Augusta being taken to Sheboygan, Wis., by Mrs. Wilhelmina Wolf, to whom her mother gave her. They met again after twenty years' separation. They justified their marriage at Canton because they were practically strangers to each other.

Sedalia Chautauqua July 20.

The annual Chautauqua, under the direct management of Fred W. Bartell, of Siloam Springs, Ark., will be given at Liberty park in this city beginning on July 20, to continue for a period of twelve days. The program as arranged is on the usual plan. Sedalia is one of seventeen towns included in the Chautauqua circuit.

GAMBLER LOST \$36,000

"WINNIE" HOYT, OF NEW YORK, IN ILL LUCK IN PARIS PLAYING BACCARAT.

LIMIT OF \$2,000 WAS TAKEN OFF

Usually Cautious Player and Quits When Things Are Not Coming His Way, but Was Spiked to Chair This Night.

Paris, April 27.—There was an epic baccarat battle in the Cerele Des Capucines last Friday night. This is the well known gaming club where John W. Gates, Capt. William H. Wheeler, Charles Singer, Charles M. Schwab and other daring players are trying their luck in Paris.

There is usually a \$2,000 limit, but they took the limit off that night when Winfield Hoyt, of New York, known to his friends as "Winnie," called for "an open bank."

Mr. Hoyt, who is secretary, friend and adviser of William K. Vanderbilt, is not known as an unconscious player. Usually he gets up when luck runs against him, but Friday night he seemed to be spiked to the chair.

Earlier in the week he had won some big bets on Vanderbilt's horses and had a large roll in the beginning. It lasted well on until towards daylight, by which time, it is said, he had lost precisely \$36,000.

Hoyt looked a trifle dazed when he finally left the table and his friends believed it best to walk home with him.

GAS TO MISSOURI TOWNS

Chicago Capitalists to Pipe the Fuel to Pleasanton, Butler and Clinton.

Butler, Mo., April 27.—George C. Danforth, of Kansas City, a business man, representing Chicago capitalists, is preparing to make an inspection of the territory from Pleasanton, Kas., to Clinton, Mo., and east with a view of piping natural gas from Pleasanton to Butler and Clinton, about 2,000 acres of gas land near Pleasanton, and will begin the work of putting in wells and laying mains soon.

A committee of business men of this city probably will act in conjunction with these men to get the gas to Butler, as it is on a direct line with Clinton and points east.

George C. Danforth is in the real estate business with offices in the Scarritt building, Kansas City. He says that the inspection will start in a few days. Will this interfere with Mr. Cundiff and his associates piping gas from Pleasanton to Sedalia?

THREE FORMER SEDALIANS

One Is Given His Release and Another Is Sold.

Ed McDill, who was with the old Sedalia team, has been released by Manager Kimmell, of the Enix team.

Larry Milton, manager of the Webb City team, Saturday closed a deal with the management of the Joplin baseball team by which the latter purchased Bert Shaner, the well known pitcher, who for one season played with Sedalia. The amount of the purchase price was not learned, but Shaner moved his belongings to Joplin and played with the Joplin team that afternoon, winning his first game.

"Billy" White, another old-time Sedalia favorite, is playing short for the Oklahoma City team in a manner not equaled by any other player in the Western association in the same position.

STABS A FRIEND OF WIFE

FRANK KILLION, A SEDALIA RAILROAD MAN, WAS THE VICTIM.

THERE WAS A WOMAN IN THE CASE

The Sedalian Is Said to Have Been Too Attentive to Mrs. Augustus Minisch and Her Husband Used Knife Sunday.

Frank Killion, a son of Engineer Thomas Killion, of the Missouri Pacific at this point, is written of as follows in the St. Louis Republic of this morning:

Frank Killion was stabbed and perhaps fatally wounded at 5:30 p. m. yesterday by Augustus Minisch in the latter's home, No. 4288 Finney avenue, in an encounter following an old grudge between the two men.

Minisch, who is 49 years old, accuses Killion of having caused an estrangement between him and his family by his attentions to Mrs. Minisch. Killion is in the city hospital with a wound in the abdomen, a cut in the thigh and a slash across the hand. Minisch is a prisoner at the Deer street police station.

Killion is 32 years old, and is a locomotive engineer, formerly working for the M. & T. system out of Sedalia, Mo., where his father resides. He has not been employed for several months.

Mrs. Minisch and her husband formerly lived in Jefferson City and Killion boarded with them for a long time. Mrs. Minisch said she and Killion's mother were old friends, and she regarded Frank almost as one of her own children, but her husband grew jealous of him without cause, and there were frequent quarrels about him.

Mrs. Minisch is 45 years old, and has a son, Joseph Roy, 25 years old, and a daughter, Catherine, 26 years old, who live with her at the Finney avenue address.

The Minisch family came to St. Louis last May, but the husband has not been at home much. Last January he went to the house and ordered Killion to leave the house. A row resulted, in which Minisch was assaulted, he says, by his son, Joseph, and ordered to remain away from the house.

Killion then rented a room over Mrs. Minisch's home, and took his meals with the latter. Mrs. Minisch was desirous of keeping a boarding house and yesterday afternoon she and Killion went out to look for a location. Minisch called at the house while they were out, and sat at the front window awaiting his wife's return.

When they returned Mrs. Minisch entered the house first and went to a rear room to change her clothes. Killion entered a moment later and went to his room.

Minisch spoke to his wife as she passed through the rooms. A few moments later someone tried the front door, and Minisch went to open it. He confronted Killion in the hall.

"When I saw him," said Minisch last night, "I said, 'Didn't I tell you to stay away from this house?' He replied with an oath, and reached into his pocket as though to draw a weapon. Just then my wife opened the door and shouted, 'Frank, kill him.' Then he made another move to his pocket, and as he did so, I reached for my knife and beat him to it."

"While we were scuffling my wife ran up and helped him beat me, and I just slashed right and left."

"I had given Killion written notice two weeks ago to stay away from my house, and had also written his father in Sedalia, to see if he could not persuade him to keep away, but it seems to have done no good. There was no trouble in our household until he came there."

Mrs. Minisch is a tall, attractive woman of commanding presence. She is a dressmaker, but of late has been employed by the Laclede Gas Light company as a demonstrator, giving cooking lessons in various downtown stores.

She said she had not seen the beginning of the trouble between her husband and Killion yesterday, but was attracted by the scuffle and ran out in time to prevent her husband inflicting further damage.

Dr. J. L. Day, of No. 4101 Finney avenue, was called in to give Killion temporary treatment before he was taken to the city hospital. The physicians at the latter institution said

last night that Killion's wound of the abdomen was very serious.

Mr. Hartshorn Has the Contract.

Contractor D. T. Hartshorn has secured the contract for doing the brick work on the new church building of St. Patrick's church, according to the announcement made by Rev. Fr. McNamee Sunday.

Work on the new building will begin as soon as the material arrives.

Broke a Large Glass.

One of the glass windows in the Sedalia Hardware company's store room was broken today by a roll of wire falling against it.

TOOK HIS WIFE'S SISTER

A REMARKABLE CASE OF DUAL LIFE REVEALED IN CALIFORNIA.

WOMAN MISSING FOR SOME TIME

Was Found Living With Her Brother-in-Law as His Wife—Arranging to Maintain Two Separate Households.

San Francisco, April 27.—One of the most remarkable and sensational cases of dual life yet recorded came to light Sunday morning, when an injunction was served on Robert L. Johnson, a wealthy farmer at Pismo Beach, near San Luis Obispo, restraining him from disposing of any of his property pending the settlement of the suit for divorce which has been brought by his wife.

This divorce suit was filed ten days ago, but the matter was kept so secret that none of the details leaked out.

Mrs. Johnson is the daughter of James Metcalf, a wealthy ranch owner living near Marysville, and she names as co-respondent in the suit her own young and beautiful sister, Marian Metcalf.

About a year ago Marian suddenly and mysteriously disappeared from her home near Marysville and was not heard of by her parents until a few weeks ago, in spite of the fact that her father had been scouring the country in search of her since she ran away.

A friend of the family sent the news that Marian had been seen at Angiola, and this made the father renew the search. He failed to find his child at Angiola, but went on to Pismo Beach, where his son-in-law was, and found that Johnson was building a home there and visited frequently with his young bride to superintend the work.

Further inquiry brought to light the fact that the "young bride" was no other than his lost daughter, Marian, who had been living with Johnson at intervals ever since she left home at Marysville nearly a year ago. It evidently had been the intention of Johnson to maintain two households, and his wife's sister had been a willing helper in the perpetration of this scheme.

Metcalf returned to his eldest daughter and as gently as he could broke the terrible news of the perfidy of her husband and her sister. Mrs. Johnson was stunned with surprise and grief, and the father was stricken down so that he now lies in a critical condition at his home. The daughter, Marian, was left behind.

DEATH OF B. B. FERGUSON

Body Will Be Brought to Houstonia for Burial.

B. B. Ferguson, aged about 58 years, died at his home in Lewiston, Idaho, Sunday morning, of anæmia.

He is survived by his wife and four children, viz: James and Charles, who reside at Lewiston, and Mrs. Glenn Robertson and Mrs. A. A. Alexander, of Houstonia, who went to Lewiston a short time ago to visit their parents and were with their father when the final summons came.

Mr. Ferguson once owned and lived on the farm near Houstonia that is now owned by Dr. Frank L. Sutton, of Sedalia.

The remains will be brought to Houstonia for burial.

Licensed to Wed.

A marriage license was issued today to William Lee and Mary Bass, colored, both of Sedalia.

INNOCENT MAN IS FREE

PRESIDENT ROOSEVELT SENT ORDER TO RELEASE HIM ON SUNDAY.

CONVICT WAS SERVING LIFE TERM

Department Investigates and Decides That He Did Not Commit Crime—Conviction Said to Be Result of Feud.

Leavenworth, Kan., April 27.—There was one inmate of the federal penitentiary who laid down Saturday night in his cell bunk with the prospect of spending his life in the prison. Sunday morning he was told that he was free, that President Roosevelt had given him an unconditional pardon, and that he might walk out of the prison walls as soon as he could change his garb of gray to citizens' clothes.

Moreover, he took with him what gave him more pleasure than the mere release from confinement, the knowledge that the officers of justice believe that he is innocent and has already served nine years for a crime of which he is not guilty, a crime which, possibly, did not exist.

Albert L. Worrell, of Ardmore, Okla., is the man to whom executive clemency was extended. He was brought to the penitentiary nine years ago at the age of 17, to serve a life sentence on the charge of assaulting a little girl. It was charged that the crime had been committed in a cotton field near Ardmore, in which were a number of persons at work.

Worrell's pardon follows a searching investigation by Pardon Attorney Finch, of the department of justice, who visited the prison here and the scene where the crime was alleged to have been committed.

A photograph of the cotton field showing that it would have been practically impossible to commit the crime without being observed was sent to the department with Worrell's application for a pardon. It was this that first attracted the attention of the authorities to the case.

Worrell and his friends have always contended that his accusal and conviction was the result of a feud between his family and that of the girl who accused him. The prison authorities say there is grave doubt if the crime was committed.

Worrell has always been a model prisoner. For the first eight years of his imprisonment he was employed in the prison tailor shop, when his health began to fail he was transferred to the kitchen, where his physical condition has greatly improved.

The telegram notifying Warden McClaughry to release Worrell arrived about 8 o'clock Saturday and was sent from Attorney General Bonaparte. It is said that the official pardon has been sent by mail, but that Worrell was to be given his release Sunday morning.

IS RAISULI DEAD?

Rumor That Noted Bandit Has Been Assassinated Seems Well Founded.

Tangier, April 27.—A report is in circulation here that Raisuli, the famous bandit, has been assassinated.

Is Confirmed in Paris.

Paris, April 27.—A news agency here has what purports to be a confirmation of the report of the assassination of Raisuli, according to advices received here that the bandit was ambushed by a number of Leymes tribesmen while he was returning to his home from a native feast given in his honor.

MAY RESUME COMMAND

Chance for "Fighting Bob" to Sail Fleet Through Golden Gate.

Paso Robles, Cal., April 27.—It has been announced that if Rear Admiral Evans continues to improve as rapidly as he has during the past two weeks, he will join his fleet at Monterey and be in command when the big fighting ships pass through the Golden Gate. The admiral's fondest wish is that he may direct the fleet into San Francisco bay.

Entertainment Is Postponed.

The announced entertainment of the Roeking Chair club by Mrs. C. E. Cotton on Wednesday of this week has been indefinitely postponed.

LOOK TO THEIR SAFETY

Moving picture shows, known gen-
erally as nickelodeons, have grown
in numbers during the past few
months, until now in every large
city they are familiar sights in al-
most every business block. The
smaller towns, too, have them, their
number being limited only by the
size of the city in which they are
located.

Sedalia has two of them, both
doubtless doing a profitable business.
If one may judge by the crowds that
are seen going in and coming out
during the hours that performances
are given.

The shows themselves are harm-
less and innocent amusements, and
do not when proper pictures are
shown injure the morals of the spec-
tators in the slightest and owing to
the small price of admission charged,
can not seriously affect the pocket
book of even the poorest.

They perhaps fill a long felt want,
in that they provide a means where
those who, not overburdened with
money, may spend an hour or so dur-
ing the week in enjoyment that re-
lieves the monotony of every day toil
and takes from the mind, for the
time being, the ever present prob-
lems of existence.

But the charge is made by authori-
ties in some of the large cities that
by reason of the arrangement of
these places, the location of the pic-
ture machine in reference to the ex-
its, the danger of explosions, which,
if they should occur, would necessar-
ily be between the audience and the
doors, the shows are a menace to
the lives and limbs of those at-
tending.

In consequence of this, active steps
are being taken everywhere to rem-
edy the evil complained of and to
compel those operating the places to
do away with all dangerous fea-
tures and to make them absolutely
safe for even the women and child-
ren, who are generally the best pa-
trons.

Sedalia authorities should follow
the example set by the larger cities
and thoroughly inspect both the
houses operated here, and if they are

not now perfectly safe compel them
to be made so before permitting any
further performances.

HE WANTS THOSE SHIPS.

That the president regards the at-
titude of republican leaders in re-
fusing to grant authority for build-
ing more than two battleships as un-
wise, shortsighted and lacking in pa-
triotism, is evident. He has not given
up his contention for four battleships
and will appeal to the senate even
more urgently than he appealed to
the house. When the naval appro-
priation bill was taken up in the
senate an effort was made to have
the money appropriated for four bat-
tleships, but without avail. If it had
not been that a roll call was choked
off in the house it is known that
many members would have voted for
the four ships in order to "save their
faces" with their constituents.

It is even hinted that the presi-
dent will veto other measures carry-
ing heavy appropriations, like the
public buildings bill (these bills it
is known are helpful to members of
congress in their districts) if they
refuse his advice to appropriate for
battleships, notwithstanding that he
may have reasons not yet made pub-
lic for requesting them. It need not
be a matter of surprise if he, too,
can teach a lesson in economy. The
president is persuaded that the coun-
try is with him in his efforts to build
a powerful navy. It has been planned,
since the naval committee in the
senate failed to make a provision for
the four battleships desired by the
president, that certain senators carry
the fight to the floor, supported by
another special message even more
emphatic than that sent to the house
by the president.

FOREIGN FINERY.

According to the official statisti-
cians in Washington, the women of
the United States expended \$60,000,
000 for the purchase of foreign laces
and embroideries last year. Although
the returns of trade do not give the
details as to some of these importa-
tions, not less than the above amount
was imported through the customs
house in 1907. Of cotton laces, em-
broideries and frills alone the im-
ports amounted to the value of \$41,
443,363, of which Switzerland con-
tributed \$15,574,414, and France \$12,
260,861. Of silk laces and embroider-
ies the imports amounted to \$6,686,
006. But the official reports give no
details as to the importations of lin-
ens and woolen laces, embroideries,
braids, etc. Nor can the most expert
statistician ascertain how much the
American tourists expend for these
articles when abroad or how much is
smuggled into the country.

ROOSEVELT STUNG.

Chancellor Day, of Syracuse Univer-
sity, said: "Anarchy of the sort prac-
ticed by President Roosevelt is the
most dangerous kind of anarchy. An-
archism in the White House is the
most perilous sort of anarchy that
ever threatened our country."

For these truisms he was arraign-
ed before the annual Methodist Epis-
copal church conference, and Bishop
Moore, of Oregon, the presiding
officer, contemptuously dismissed the
charges, adding this final sting, amid
the applause of all his clerical breth-
ren:

"Any man in public life who has a
'policy' challenges the ruling of
the people, who yet, thank God, are
the rulers of the country."

Thus the entire Methodist church,
numbering 6,600,000 communicants,
and ranking second to Catholics in
numbers, endorses Chancellor Day's
opinion of Mr. Roosevelt.

The Hungarian artist who painted
the president claims the president
told him he would be forgotten in six
or seven years. The Ananias club,
nature fakirs and undesirable citi-
zens will remember him seven times
seven years, if they live that long.

It is said that d'Annunzio, the Ital-
ian novelist, has purchased a suit of
clothes of a deep violet color, to
match his complexion. It would seem
that a man with a complexion like
that had better take rhubarb col-
orant or catomel.

A probation officer out west has
discovered that cigarette will cure
the drink habit. Now let him redou-
ble his inventive faculty and see if
he can not find the drink that will
cure the cigarette habit.

There was a bargain counter rush
in Los Angeles from which one of
the women emerged with a broken
limb. Those department stores should
be compelled by law to keep bargain

It is said that there is a bottle of
brandy more than a hundred years
old in the corner stone of a Jersey
court house, and there is little won-

AN ATTEMPT AT SUICIDE

James W. Piper, of Marshall, Mo.,
Cuts Throat on Train.

Marshall, Mo., April 27.—James W.
Piper, aged 42 years, a prominent
stock raiser of this city, attempted
to commit suicide by cutting his
throat on a Chicago & Alton train
near Odessa Saturday. He is lying
in a hotel in Odessa in a critical con-
dition.

He slashed himself on both sides
of the throat, making ugly wounds.
Passengers in the smoker and the con-
ductor disarmed him and he then tore
the wounds open with his hands.

Piper, it is said, recently had some
domestic trouble, and two weeks ago
left for Omaha. Later his wife re-
ceived a message stating he was
broke and requesting money, which
was sent. Nothing more was heard
of him until his wife was notified of
his attempted self-destruction.

NEW ENGLAND DRY GAIN

MASSACHUSETTS TO PUT 210
SALOONS OUT OF BUSI-
NESS ON MAY 1.

CITY OF WORCESTER TO CLOSE 128

In Vermont There Will Be Only 27
Wet Cities and Towns Against
92 Five Years Ago—Move-
ment is Growing.

Boston, Mass., April 27.—Condi-
tions governing the traffic in intox-
icating liquors in many portions of
the New England states become seri-
ously disturbed on the first of May,
when changes in the local option take
effect, and temperance workers are
pointing to the general situation as
an index of spreading sentiment
against the saloon. In Massachusetts,
by changes in six cities and thirty-
six towns, 210 licensed places, or 10
per cent of the total number, must
abandon the liquor business at 11
o'clock Thursday night.

In Vermont only twenty-seven
cities and towns will legalize the sale
of liquor this year, as compared with
ninety-two license cities and towns
five years ago, when local option took
the place of state prohibition.

In New Hampshire an important
ruling of the state license commis-
sioner takes effect on May 1, whereby
druggists' licenses throughout the
state will be abolished, and in Rhode
Island, the temperance interests have
just succeeded in forcing restrictive
liquor legislation through the house
of representatives.

A more radical upsetting of the
liquor policy of Massachusetts has
not occurred in fifteen years than will
be brought about on May 1, when
three of the largest manufacturing
cities of the state and a number of
smaller places, after long periods of
license, give up the liquor traffic, in
accordance with the will of the peo-
ple, as expressed at the polls during
the recent months. One of these
cities—Worcester, with its population
of 130,000—is shown by statistics to
be the largest municipality in the
country, if not in the world, under a
no-liquor license regime. When this
decision takes effect on Thursday
night, the licenses of 128 places, in-
cluding seventeen hotels, will be re-
ndered void.

The second largest of the Massa-
chusetts cities to enter upon a period
of no license this year is Lynn, which
showed its opposition to the saloon
for the first time in twelve years. The
saloons of the city have paid annually
\$93,591 in license fees.

The "no license" vote throughout
the state, as shown by returns from
all but four towns, and a majority at
the recent elections of 18,085. A
year ago, according to the Massa-
chusetts Total Abstinence society,
there was a "yes" majority of 6722,
making the year's net gain for no li-
cense 24,807.

Two cities and thirteen towns,
changed to license, while four cities
and twenty-three towns changed to
no license. It is estimated that about
2,000 men were employed in the pla-
ces, which will have to close for the
ensuing year.

VACANCIES FOR CADETS

EXAMINATIONS ON FOR CADET-
SHIPS IN REVENUE CUT-
TER SERVICE.

LIKELY OCCUPY FOUR DAYS TIME

'Tis a Branch of the Military Force
of the Government and is At-
tached to the Treasury
Department.

Washington, April 27.—Competitive
examinations for appointment to
cadetships in the line of revenue cut-
ter service commenced today in sev-
eral cities before boards of officers
convened for that purpose. The ex-
aminations will occupy about four
days. An unusually large number of
vacancies exist in the service and an
effort will be made to fill all of them.

The revenue cutter service is a
branch of the military force of the
government, attached to the treasury
department, co-operating with the
navy whenever the president so di-
rects, and its officers hold rank with
and receive the same pay and allow-
ances that officers of corresponding
grades in the army receive.

In time of peace the functions of
the service extend to the enforce-
ment of almost every statute bearing
upon maritime interests of the nation
and a revenue cutter shall perform
any duty or make any cruise that the
president may direct.

Its officers, as inspectors, drill the
crews of the life saving service and
keep them in a high state of effi-
ciency.

The coasts are continually being
patrolled by cutters, designated by
the president to cruise and give suc-
cor to vessels in distress; also to
destroy all derelicts found at sea by
mining and blowing them up, thus
riding the oceans of these pests of
the seas.

While performing these various
duties each commanding officer must
keep his ship in a state of prepared-
ness for war, and to that end con-
stant drills are carried out on board
every ship in commission and the gun
crews are instructed how to shoot to
hit.

The vessels are frequently mobilized
for fleet tactics and to land their sail-
ors for infantry, artillery and other
drills.

HONOR CATHOLIC PRELATE

Fortieth Anniversary of Connection With Parish.

Boston, April 27.—Several prominent Catholic clergymen and hundreds of laymen participated today in a celebration in honor of the Rt. Rev. Mgr. Dennis O'Callahan, permanent rector of St. Augustine's parish, the occasion marking the fortieth anniversary of his connection with the South Boston parish.

A demonstration and reception will be held this evening. The event opens a grand quadrangle, which is to last until May 11. Mgr. O'Callahan is one of a very few clergymen in New England who have spent forty years of active service in the priesthood.

NEGROES WILL BE BEATEN

Secretary Taft Almost Certain of Mississippi.

Jackson, Miss., April 27.—Preceding the republican state convention in this city by two days, republican district conventions are to be held today in the First district, at Tupelo, in the Third district, at Indianola, and in the Fifth district, at Meridian.

The conventions of the Second and Seventh districts will be held tomorrow, the former at Oxford and the latter at Brookhaven.

Reports received indicate that Taft delegates will be elected in all the districts, despite the opposition of the negroes.

SLIDE BURIES A VILLAGE

NOTRE DAME DE SALETTE IS ENGULFED IN A TWINKLING ON SUNDAY.

TWENTY-FIVE ARE REPORTED DEAD

The Mortality Would Have Been Much Greater Had the Town Been Compacted—The Story of an Eyewitness.

Montreal, Quebec, April 27.—An enormous mass of earth and snow, forming a tremendous landslide, rushed down the mountain side upon the little hamlet of Notre Dame de Salette, about eighteen miles from the town of Buckingham, at an early hour Sunday morning. Twenty-five persons are believed to have lost their lives.

Notre Dame de Salette is located at the base of a high hill, and the occupants of the houses were all asleep when the landslide came with a roar about 5 o'clock. A number of houses, with their occupants, were engulfed in a twinkling.

Owing to the remote locality of the village and the fact that it has neither railway, telegraph or telephone communication, details of the catastrophe are hard to get. Requests have been sent to Buckingham for twenty-five coffins and thence have already been sent.

The news of the disaster was brought to Buckingham by Mr. Brosseau, of Poupore, a nearby village. He was an eye witness of the catastrophe from a distance and he states that a considerable portion of the mountain, which is on the opposite side of the river to Notre Dame de Salette suddenly became detached and was hurled down the steep side, crossing the river and completely burying houses and other buildings. But for the fact that the little village is scattered the mortality would undoubtedly have been much greater.

Immediately upon receipt of the news at Buckingham, all the doctors in the place, with a large force of men, responded to the call for aid and drove to Notre Dame de Salette, while a procession of wagons took twenty-five coffins to the scene.

Paul Desjardins' store was destroyed. He was absent from home, but his wife, two children and a man and maid servant are missing. They are probably under the ruins of the store. Desjardins kept the post office and a general store.

Mrs. Camille Laporte, a widow, and seven of her children are supposed to be among the dead. The names of the other dead are as yet unobtainable.

It is understood that the work of removing the rocks and earth will

consume much time, and it will be hours before the casualty list will be definitely known.

Burial of Mr. Schuster.

The funeral of Peter Schuster, who died early Saturday morning, was held from the German Evangelical church at 2:30 o'clock Sunday afternoon, Rev. Otto Press, the pastor, officiating.

Members of the Woodmen of the World attended in a body. There were a number of floral offerings. Burial was made in the city cemetery. The pallbearers whose names were printed in Sunday's Democrat-Sentinel served.

A TORNADO ON SABBATH

STORM IN THE SOUTH DAMAGES BUILDINGS AND INJURES COLORED FOLK.

GROVES ARE REPORTED DESTROYED

Heavy Losses in North Mississippi—The Wires Are Down and It Is a Difficult Matter to Get Full Particulars.

Memphis, Tenn., April 27.—A tornado swept over Memphis at 3:45 o'clock last afternoon, blew chimneys from buildings, swept awnings from their fastenings, hurled signs into the streets and smashed immense plate glass windows, but no lives were lost.

The walls of the Gabay building on Main street, gutted by fire several weeks ago, were blown into the street, tearing off the end of a street car and filling the street with debris.

In New South Memphis more than a dozen smokestacks of large manufacturing plants were blown down, the New South Memphis water plant was heavily damaged and several negroes were hurt.

The tornado, after passing over Memphis, took an easterly direction, uprooting trees and blowing off roofs of houses. Immense groves were destroyed.

Heavy losses are reported from North Mississippi. Wires are down, and so far no definite reports have been received from points south.

Death List About 350.

New Orleans, La., April 27.—The totals of death, misery and ruin caused in four southern states by Friday's tornadoes came to hand Sunday in approximately correct form.

Briefly stated, they are: Killed, about 350; injured, painfully or seriously, 1,200; homeless, several thousand.

Towns reporting serious wreckage, 46; habitations and business houses practically complete ruins in these towns, about 2,500.

The above figures do not include the wreckage on plantations and farms, scores of which were struck and damaged.

The number of dead may never be known accurately, for the reason that about 300 of them were negroes, and they were buried in many communities without careful records being made of their numbers.

While some of the first reports, giving apparently reliable death lists have since proved unreliable, nevertheless, remote places, which were late in reporting their dead, have served to hold the total death list uniformly around 350.

The manner in which this death list has grown for two days, in spite of continual subtractions from early reports, has been a melancholy index of the interstate scope of the disaster.

Storm Sweeps Indiana.

Providence, Ind., April 27.—A tornado which swept three townships of Johnson county at 4 o'clock yesterday afternoon, demolished barns, damaged houses, destroyed telephone and telegraph service, and wrought damages estimated last night at not less than \$50,000. The storm swept in a northeasterly direction, and did not appear to be over one-eighth of a mile wide.

Harry Plummer, aged 18, at the Mito Clure home, is the only one known to have been injured.

SEPARATE FROM THE "D. A. R."

Daughters of the Revolution in Session in New York.

New York, April 27.—Daughters of the Revolution from all parts of the United States are in attendance at the seventeenth annual meeting of the general society, which convened today at the Waldorf. The society is separate and distinct from the Daughters of the American Revolution, which recently held its convention in Washington.

More interest than usual attaches to this year's meeting because of the election of officers. Eight amendments to the constitution will also be voted upon.

The six days' program includes a reception to the general society by the New York state society at the Hotel Plaza, a theater party, excursions to historic points, and a banquet at the Waldorf-Astoria.

The general society of the Daughters of the Revolution was organized in this city on August 20, 1891, a year later than the Daughters of the American Revolution. State societies have been established throughout the country. The body admits to membership women whose descendants took part in the struggle with Great Britain.

New Haven, Conn., April 27.—All is in readiness for the first games of the 1908 pennant season in the Connecticut league and the season will be formally opened tomorrow.

The circuit now comprises New Haven, Hartford, New Britain, Meriden, Waterbury, Springfield, Holyoke and Bridgeport.

New Britain succeeds New London in the league, and Meriden has taken the place last year occupied by Norwich.

WILD SCREAMS OF WOMEN

Greeted the Sentence of the Female Matrimonial Agent.

Chicago, April 27.—Mrs. Jennie Call, the matrimonial agent, was refused a new trial by Judge Behea in the United States court Saturday and was sentenced to one year in the house of correction, where she probably will have an opportunity of making the acquaintance of Marian Gray, the Elgin affinity funder, who was sentenced to the same place for the same period a few days ago.

When Judge Behea asked Mrs. Call if she had anything to say, she imposed sentence the woman made an impassioned plea for liberty. She declared she did not know she was doing wrong, and pointed to the disgrace which would attach to her daughter.

When the court announced that the sentence would be one year in the house of correction Mrs. Call's daughter, Miss Jennie Titian Scott, screamed and then both women clung to each other, weeping hysterically, until Attorneys Murphy and Shiner assisted them to seats.

A MUSEMENTS

Mrs. Leslie Carter in Du Barry. Mrs. Leslie Carter, the most distinguished actress of our time, will present David Belasco's play, Du Barry, at the Sedalia theater on next Monday night in giving Mrs. Carter the first place among English speaking actresses, writers for the stage have taken two things into account: her incomparable temperament and her achievement as a dramatic artist. Mrs. Carter's early stage work was as a comedienne, or rather in roles that did not call for sustained emotionalism, while all her later impersonations have been a combination of the two, the light and gay, joined to surprising flights of tense, temperamental acting. This great dramatic artist shines as brilliantly as a comedienne as an emotional actress, and the same can oddly be said of every actress who has made a great name on the boards.

"The Lion and the Mouse." In producing Charles Klein's play, "The Lion and the Mouse," Henry B. Harris expended something like

\$50,000 on the scenery, costumes and general properties, with the result that the scenic equipment of this play has caused wide discussion among all who have seen it. In the second act setting, showing the library in a Fifth avenue mansion there is absolutely no canvas used except for the ceiling. The entire panneling and fire place are of birchwood, even the desk, bookcases and chairs correspond with the general surroundings. To set this one scene it requires eighteen stage hands and consumes in time about fifteen minutes. The setting of the fourth act is also artistic and detailed. It shows the boudoir of Shirley Rossmore in the home of John Burkett Ryder. The panneling in this set is covered with blue satin, the window seats and couches being of the same material. This setting was built and painted by Joseph A. Phylisio, one of the most famous painters in this country. "The Lion and the Mouse" will be seen for the second time in Sedalia at the Sedalia theater on next Saturday and Sunday night.

CONDITIONS GROW WORSE

Reports From Stricken Southern Districts Increase List of Dead.

Atlanta, April 27.—Conditions in the districts that were stricken by the storms of Friday, Saturday and Sunday show no improvements, according to reports up to this afternoon. It is now said that the death list may reach 450. The list now shows 1277 injured. Mississippi and Louisiana are the chief sufferers. Relief measures have been taken in Montgomery, Mobile, New Orleans

and other places. The report of the weather bureau indicating frost for tonight, has hastened preparations for the relief of the homeless.

VIEWS OF CHAMP CLARK

PREDICTS BRILLIANT, ALSO A DRY, FUTURE FOR THE UNITED STATES.

A BROOKLAND BROTHERHOOD TALK

Says That the Time Will Come When It Will Be Impossible to Get a Drink of Whisky South of the Potomac River.

Washington, April 27.—"The day of controversial religion in this country has passed, and the day of practical religion is at hand. I am glad of it."

This sentiment was uttered by Champ Clark, of Missouri, in an address before the Brookland Brotherhood at their monthly meeting in the Baptist church. Mr. Clark's topic was "The United States of America in the Twentieth Century."

"The dawn of the year 2000 will see us the first power on earth and there will be a scramble among the other nations for second place," said the speaker.

"When our republic was established there was but one other; now there are twenty-six. Not one of the South American republics could have existed had it not been for the United States. Ours is the only nation on the face of the earth that has stood for an ideal, not by the mailed hand, not by force of arms, but by the wholesomeness of our example."

Mr. Clark pointed out the great strides that have been made in the prohibition movement, and predicted that the time would come when it would be legally impossible to get a drink south of the Potomac river.

WOMEN TO CLEAN UP TOWN

Chillicothe Club Members to War on Rubbish.

Chillicothe, Mo., April 27.—Determined that Chillicothe shall not be humiliated again by having the report sent out, as it was last year, that a cow had been lost in high weeds, the ladies of Sorosis, a woman's club, have announced that they will see that the streets and yards of the city are kept free from superfluous plant growth this summer.

They have appointed a committee in each ward, and say that if soft words will not accomplish their end they will invoke the law. The city officials and newspapers have promised co-operation. Persons who permit weeds to grow to jungle-like proportions will have their names published by these committees.

FARMER LOST HIS REASON

Kills Wife, Shoots Daughter, Slays Self in Mississippi.

Memphis, Tenn., April 27.—News has just reached here of a horrible tragedy Saturday morning at Clayce, Miss., a short distance south of here. Wallace Polk, a prosperous farmer, in an insane fit, killed his wife, shot his daughter through the arm and then sent two bullets into his own breast and was dead when found in his orchard.

It seems that Polk had had trouble with some of his tenants Saturday and all night he was nervous. He was about 60 years old, a man of good character, and had seven sons and daughters, all grown, and was never known to show any signs of insanity before.

BANISHED WOMAN RETURNS

Union Soldiers Drove Miss Rightor From Helena, Ark.

Helena, Ark., April 27.—After an absence of thirty years, Mrs. Emma Morris has returned here, whence she was forced to leave in her girlhood because she dared to wear the Confederate colors upon her hat after the capture of Helena by the federal soldiers. Her name then was Miss Emma Rightor.

Miss Rightor was organist at the Baptist church on a Sunday following the fall of the city, and she showed her spirit by donning a hat bearing the colors of the Confederacy.

MAIL POUCHES MISSING

A SACK SHIPPED ON MAJESTIC FROM LONDON DESTINED FOR ST. LOUIS.

CONTENTS VALUED AT \$500,000

Postoffice Authorities in Washington Say They Have No Knowledge of Alleged Theft as Reported.

London, April 27.—The London postal authorities have learned that two bags of mail from this city, containing securities and other valuables worth \$500,000, were stolen in New York the latter part of last month.

According to the reports received here, one of the bags was destined for St. Louis, and was shipped by the Majestic, which arrived in New York March 26. The other, destined for Brooklyn, was shipped by the steamer Philadelphia, which arrived at New York March 29.

Both bags disappeared in transit between the steamers and the post-office. It is stated that they were handed over to the mail boats and receipted for. Efforts have been made to keep the theft a secret while the investigation is going on.

A dispatch from Washington says the postoffice authorities there have no knowledge of the theft.

"NIPPED" HIS MATTRESS

Hence it Was That Andy Knipp Had Fright of His Life.

Andy Knipp, the shoe merchant, was given a bad fright at his West Fifth street boarding house late Sunday night. He had spent the evening with a lady friend, and during his absence some of his friends removed the mattress from his bed and stood it up in a closet in his room.

When Andy returned, after midnight, and missed the mattress, he entered upon a search for it. He opened the closet door, when the mattress fell against and knocked him down.

Visions of burglars loomed up like a mountain, as was attested by the unearthly yell that Andy gave, but he soon recovered his composure, and is now after the parties who put up the job on him.

BRINGS DETAILS OF STRIKE

Says Million Will Come From Nolan Creek This Summer.

Seattle, Wash., April 27.—P. T. Rowe, bishop of the Episcopal church for the territory of Alaska, who arrived in this city Sunday from the north on the Yucatan, brings the first detailed information regarding the gold strike on Nolan creek at the head of the Koyukuk river. Nolan creek is only about 200 miles from the Arctic ocean.

The strike was made at a depth of about 150 feet. It is estimated that the cleanup at the end of this summer will reach \$1,000,000.

Bishop Rowe came out to go to the Lambeth conference in London, England, and left this morning for New York to sail for England.

BLIND MAN ATTACKS CRIPPLE

A Fight in the St. Louis Poorhouse at Religious Services.

St. Louis, April 27.—While services were being held late yesterday at the city poorhouse by members of the Salvation Army, Joseph Bagley, a blind man, drew a knife and attacked Joseph McGuire, a one-legged man.

Bagley slashed McGuire twice across the throat before the cripple could defend himself. McGuire finally seized a crutch and wielded it. Bagley was knocked down and was being beaten by McGuire when William Curran, a city fireman stationed at the poorhouse, separated the combatants.

McGuire, weak from loss of blood, sank to the floor. A physician attended him and took eight stitches in the wounds in his throat. He will recover. No arrests were made. Neither man would tell the cause for the fight, which was witnessed by twenty paupers.

BOARDER KILLS LANDLADY

Goes to Woman's Room After Leaving His Guests.

Baltimore, April 27.—Mrs. Anne Griffith, aged 35 years, was shot to death last night by Frank McIntyre, who had been a boarder at the Griffith home at Brooklyn, a southern suburb of this city, for about a year.

McIntyre had been entertaining some friends, and all of them are said to have been drinking. Leaving the others, McIntyre went upstairs to Mrs. Griffith's room where she was in bed.

He had been gone about fifteen minutes when five shots were heard. Every one of them had taken effect in the body and face of the woman, who died before a doctor could be summoned. McIntyre gave himself up. Griffith was not at home when the shooting, for which no motive is assigned, took place.

A BIG APPLE CROP IS DUE

MISSOURI GROWER SAYS COLDING WAS DESTROYED LAST YEAR.

MR. BUTTERFIELD OF FARMINGTON

Has Given Subject Careful Consideration, and in Consequence His Utterances Are Worthy of Credence.

Chicago, April 27.—Missouri is preparing for a bumper fruit crop and any danger of a frost that would hurt ended practically with Easter Sunday, according to Mr. Butterfield, of Farmington, Mo., one of the largest fruit growers in the state, who is in Chicago on business.

"We are practically sure of having one of the largest apple crops ever known in the state," said Mr. Butterfield. "Last year there were a few apples on the northern edge and a few at the southern border and none in between. The killing frost on April 23 fixed the buds. It was considered a calamity at first. Now we realize that it was a blessing. The codling moth lays its eggs at the heart of the blossom, just at the point where the apple stem will be. When the apple begins to mature the resulting worm bores its way into the fruit and destroys it."

"There were no apples last year, hence no worms. For the same reason that the chinch bug passed away with the failure of the farmers to grow wheat after the chinch bug visitation, we believe that there will not be an apple worm in Missouri this year, and we anticipate a remarkable crop, which is a good thing for the apple grower and a good thing for the apple consumer."

HAMLIN LAUDS MISSOURI

Says the State Could Exist With a Wall Around It.

Washington, April 27.—Missouri, her statesmen and her resources were lauded by Representative C. W. Hamlin, of that state, at a meeting of the Missouri Society of Washington in Lythian temple Saturday night.

Senators Benton, Vest and Cockrell were characterized by the speaker as men of the highest type of American citizenship, whose names are enrolled with those of Calhoun, Clay and Webster in the history of America.

Referring to the resources of the state, Mr. Hamlin said that if a wall were built around Missouri there would still be found within the boundary everything necessary for the comfort or necessities of its people.

HE ROCKED HIS TEETH

To Get Food and Is Storming Because He Can't Chew It.

Glenwood Springs, Colo., April 27.—Almost dead from hunger and unable to buy food, Patrick Flynn, a laborer, yesterday hit upon the novel plan of pawing his false teeth.

He raised \$1 but now that he has the wherewith to purchase eatables his teeth are gone and he has nothing with which to chew his food.

The teeth are in possession of Dr. T. J. Horna, of Glenwood, and he has attempted to return them to Flynn, but the latter declares a bargain is a bargain, and that it would not be honorable in him to take the teeth back.

GEN. HADLEY IS HOME

A Possibility That the Attorney General May Yet Be Candidate.

Jefferson City, April 7.—Attorney General Hadley, who reached home yesterday from his trip in New Mexico, says he may have another statement regarding his political intentions within the next few days.

"I find that I have not been understood, or rather it will require a second statement to make myself understood. I may give the same within the next few days," said the attorney general.

SNOW IN SOUTH DAKOTA

Fall Started Saturday Night and Continued Yesterday.

Pierre, S. D., April 27.—A snow storm started here Saturday night and continued most of Sunday, growing worse at night.

The temperature was mild, however, and the snow melted as fast as it fell.

It is not likely there will be any damage, unless it is to weak lambs and stock on the range.

THE \$5000 WAS GONE

When Sullinger's Body Was Found in an Old Well.

Paducah, Ky., April 27.—The body of James Sullinger, a well known farmer of Crittenden county, was found yesterday in an old cistern on a dilapidated and abandoned farm place on the road leading to Lola, in Livingston county.

Sullinger had left home for Lola

with \$5,000 in cash to buy property. When found the money was gone. It was clear that he had met a foul death, for there was a big stone about his neck to hold the body under water. Sullinger was about 67 years old and a man of family. There is no clue.

It would be too bad to decorate your home in the ordinary way, simply because of not knowing you could do it better for less money with Alabastine. Better find out all about Alabastine first, anyway.

HEARST MEN TO BANQUET

The Second Annual Spread of the
Independence League.

New York, April 27.—A feast of
epicures, drinkables and oratory, the
latter to be supplied principally by
William Randolph Hearst, will mark
the second annual banquet of the In-
dependence League at the Hotel
Knickerbocker this evening.

The feast was originally set for Lin-
coln's birthday, but was postponed on
account of the illness of Mr. Hearst,
the head and front of the league.

In addition to an address by Mr.
Hearst, several of his political lec-
turers will speak, including Arthur
Brisbane, proclaimed as the greatest
and highest salaried editor on earth.
It is considered likely that some im-

portant announcements will be made
at the dinner as to the plans of the
Independence league in the present
campaign.

Deadly Reptile Sinks Fangs Into
Gauze and Glass Receptacle Re-
tains Poison in New
York City.

New York, April 27.—For the first
time in eighty years and the second
time in the history of the science of
medicine, an operation for the ex-
traction of venom from the deadly
lancehead viper, said to be the most
poisonous of all known reptiles, was
performed at the Brox Zoological
park Sunday.

As a result science once more has
a plentiful supply of serum which has
been found almost invaluable in the
treatment of extreme cases of in-
sanity and also of many of the
malignant diseases. The precious
fluid obtained is less than a third of
an ordinary teaspoonful in quantity.
The supply is ample to meet the de-
mands of the world for at least half
a century.

Those who participated in the oper-
ation Sunday were Dr. Raymond L.
Ditmars, curator of reptiles at the
park; Dr. St. Clair Smith, one of the
leading homeopaths of the country;
Charles E. Snyder and Dr. E. W. Run-
yon.

Holding the reptile close to his
body with the head pointing outward,
Dr. Ditmars gave the signal and
Keeper Snyder thrust into the snake's
mouth a glass receptacle of unusual
strength and the wide aperture at the
top had been covered with a piece of
medicated gauze. When the recep-
tacle was at a point less than half an
inch from the viper's nose there was
a lunge forward and with a snap the
fangs tore through the cloth and the
poison spurted into the glass.

The snake will be kept in captivity,
and, if he survives, other operations
will be performed and the future sup-
ply of the serum made secure.

New York, April 27.—Secretary
Taft will arrive in New York tomor-

America on Popular Government in
the World."

Tomorrow afternoon he will lecture
before the members of the American
National Red Cross at the Waldorf.
His excellency, Dr. Wu Ting Fang,
Chinese minister to the United States,
will be the principal speaker at the
next meeting of the Civic Forum, on
May 5, when he will deliver an ad-
dress on "The Awakening of China."

COLORADO IS FOR TAFT

State Convention to Meet at Pueblo
Tomorrow.

Pueblo, Colo., April 27.—With pic-
tures of Taft displayed in many win-
dows and numerous other evidences
of the popularity of the war secre-
tary in Colorado, Pueblo today wel-
comed the delegates who are pouring
into the city for the republican state
convention.

The first session will be held in the
opera house at 11 o'clock tomorrow
morning. The convention will con-
sist of 723 delegates, practically all
of whom favor the selection of na-
tional convention delegates pledged
to Taft. The present national admin-
istration will also be endorsed.

Mrs. Frank Narrow's four-months-old
daughter is in perfect health and ap-
parently is not inconvenienced by na-
ture's mistake.

The lower tongue is a third smaller
than the other, and the only fear of
the parents is that the child's speech
may be affected.

REPUBLICANS OF ARKANSAS

Those of the Fifth District Met at
Little Rock.

Little Rock, Ark., April 27.—Rep-
ublicans of the Fifth congressional dis-
trict met here today to select dele-

gates to the national convention and
nominate a candidate for congress in
opposition to Representative C. C.
Reid.

The Sixth District convention will
also be held today at Malvern, and
that of the Seventh district at Cam-
den, while the republican state con-
vention will be held tomorrow at Hot
Springs.

It is likely that delegates favorable
to Taft will be selected, as he has
received the indorsement of the state
central committee. This was not ac-
complished, however, without much
opposition from the colored republi-
cans who oppose both Taft and Roose-
velt because of the action taken in
the Brownsville case.

L. L. CARMIN DIED A DAY AFTER
WIFE'S SLAYER GOT A
LIFE TERM.

DEAD MAN WAS A FRISCO ENGINEER

His Wife Deserted Him Two Years
Ago and Was Murdered in Calif-
ornia—Body Found By
Means of Dream.

Springfield, Mo., April 27.—Louis
L. Carmin, a Frisco engineer, who
went to Oakland to attend the trial
of Mark Wilkins, charged with the
murder of his (Carmin's) wife last
July, died at the home of a friend in
that city Saturday. Relatives here
have been notified and the body will
be brought here for burial.

Carmin's wife deserted him here
about two years ago. Nothing was
heard of her until last October, when
a skeleton was found in a bed of lime
on the premises occupied by Wilkins.

The finding of the skeleton and the
arrest, conviction and life imprison-
ment of Wilkins resulted from a dream
of a woman who lived near the Wilkins
home.

In a vision this woman saw the
body of Mrs. Carmin, who had passed
as Wilkins' wife, lying in a trench
with the hands folded across the
breast.

The dream so preyed upon her that
she induced the sheriff to make an in-
vestigation. The body of Mrs. Car-

A 'Bak' Liver

May be only a tired liver, or a starved
liver. It would be a stupid as well as
savage thing to beat a weary or starved
man because he lagged in his work. So
in treating the lagging, torpid liver it is
a great mistake to lash it with strong
drastic drugs. A torpid liver is but an
indication of an ill-nourished, enfeebled
body whose organs are weary with over-
work. Start with the stomach and allied
organs of digestion and nutrition. Put
them in working order and see how
quickly your liver will become active.
Dr. Pierce's Golden Medical Discovery
has made many marvelous cures of "liver
trouble" by its wonderful control of the
organs of digestion and nutrition. It re-
stores the normal activity of the stomach,
increases the secretions of the blood-mak-
ing glands, cleanses the system from poi-
sonous accumulations, and so relieves the
liver of the burdens imposed upon it by
the defection of other organs.

If you have bitter or bad taste in the morn-
ing, poor or variable appetite, coated tongue,
sour breath, constipated or irregular bowels,
feeling weak, easily tired, dependent, frequent
headaches, pain by distension of small of back,
stomach or distressed feeling in stomach,
perhaps nausea, and a "rising" in
throat after eating, and kindred symptoms
of weak stomach and torpid liver, no medi-
cine will relieve you more promptly or
effectually than Dr. Pierce's Golden Medical
Discovery. Perhaps only a
part of the above symptoms will be present
at one time and yet point to torpid liver or
biliousness and weak stomach. Avoid all
hot bread and biscuits, griddle cakes and
other indigestible food and take the "Golden
Medical Discovery" regularly and stick to its
use until you are vigorous and strong.

The "Discovery" is non-secret, non-alco-
holic, is a glyceric extract of native medi-
cinal roots with a full list of its ingredients
printed on each bottle, upper and attested
under oath. Its ingredients are endorsed
and extolled by the most eminent medical
writers of the age and are recommended to
cure the diseases for which it is advised.
Don't accept a substitute of unknown
composition for this non-secret MEDICINE
OF KNOWN COMPOSITION.

A MEXICAN EXPOSITION

WILL BE OPENED IN THE CRY-
STAL PALACE IN LON-
DON ON JUNE 1.

LAST CONSIGNMENT OF EXHIBITS

The Mexicans Who Will Participate
in the Exposition Will Live
in the Manner They Do
When at Home.

City of Mexico, April 27.—On the
steamer Sabor of the Royal Mail
Line, sailing today from Vera Cruz,
will be transported the last consign-
ments of the exhibits to be displayed
in the Mexican National exposition,
to be opened in the Crystal Palace,
London, on June 1.

A large party of native workers in
the arts and crafts of Mexico are also
sailing on today's steamer and will
be employed at the London exposition
in giving exhibitions and practical
demonstrations of their handwork.
All of the great industries have
sent elaborate displays of their prod-
ucts, and the London show will doubt-
less furnish the most complete expo-
sition of the resources of Mexico ever
attempted.

The exhibition is being widely ad-
vertised throughout Europe and is ex-
pected to convince European capital-
ists of the durability of the invest-
ment of capital in the development of
Mexico.

One of the features of the expo-
sition will be a remarkable reproduc-
tion of the market place of Tehua-
tepec, a panorama of Itzacihault
and Popocatepetl, with a distant view
of Pueblo and Chapultepec Castle.

The Mexicans who will participate
in the exposition will live in the man-
ner to which they are accustomed at
home, and native cooks will provide
them with chili con carne and other
"delicacies."

States.

The date really falls on April 26,
but as that day was Sunday, the great
majority of the lodges have postponed
their observances until today. Cele-
brations on a large scale will be held
in Washington, Philadelphia, New
York, Chicago, Baltimore and other
places this evening.

Since five men met in the Star
States hotel, Baltimore, April 26, 1819,
and formed the order it has grown
until the membership in round num-
bers is 1,700,000.

SNOW STORM IN ST. PAUL

Delays Street Car Traffic Badly—
Country Districts Covered.

St. Paul, Minn., April 27.—A north-
west gale which blew thirty-five miles
an hour all last night brought with it
a snow storm, covering everything
with wet sticky snow here today.

All street car service in the city is
delayed. In the outlying districts the
ground is covered several inches.

ACTOR EXPIRES ON STAGE

Death Causes Postponement of Per-
formance in Paris.

Paris, April 27.—M. Armand Marie,
the popular actor, and whose special-
ty was comedy, died in harness Sat-
urday night, during a dress rehearsal
at the Cluny theater.

The curtain had just risen for the
first act of "Qui Quai Vir Ninette,"
and M. Marie and a fellow actor were
in possession of the stage. The for-
mer attempted to sing the opening
lines of a song. His voice faltered,
and he was seen to stagger.

A stage hand ran forward and
saved him from falling. He was taken
behind and placed on a sofa. In a
few minutes he became unconscious
and half an hour later died from a
apoplexy.

The management and the audience
were very much distressed, and the
performers, marked by so tragic an
incident, was indefinitely postponed.
M. Marie, who was 45 years of age,
was formerly at the Palais Royal,
where he appeared in the leading
role. His connection with the Cluny
began but recently.

AGED 101, SEEKS 15TH SPOUSE

Centenarian Who Recently Buried
Fourteenth Wife.

Middletown, N. Y., April 27.—
Nicholas Vann, the negro of the town
of Mount Hope, Orange county, who
was 101 years old Wednesday, is look-
ing, he says, for his fifteenth wife.
Mr. Vann is hale and hearty and de-
clares he never felt better in his life.
He buried his fourteenth wife on
December 19 last and now says that
he is getting lonely and believes with
the Good Book that it is not good to
be alone. Although he has had four-
teen wives and many children, all
have passed away.

Mr. Vann was born in the town of
Mount Hope on April 22, 1807.
Slavery then existed in New York
state and he took the name of his
master.

He has had a varied career, acting
at times as body servant to some of
the most prominent men of Orange
county. He has preached, doctored
and practiced law.

HE DIED TO SAVE OTHERS

A Frisco Train Dashes Into a Party
of Walkers in Swope Park.

Kansas City, April 27.—Forgetting
his own safety in an attempt to save
a group of merry young people from
death yesterday afternoon, Charles
E. Smithson, of 702 Wabash avenue,
was struck and killed by a St. Louis
and San Francisco passenger train
near Swope park.

At the point where the accident
happened the St. Louis and San
Francisco and the Missouri Pacific
tracks run side by side about ten
feet apart. Smithson, becoming con-
fused, thought the train was ap-
proaching on the east track, which is
the Missouri Pacific.

The pilot of the engine struck
Smithson in the back. He was knock-
ed about thirty feet and his neck
broken. He was returning from a
walk to the Third regiment rifle
ranges with Joseph E. Goad, of 320
West Thirty-ninth street.

FIRST GOLF TOURNAMENT

It Will Be Played By the Country
Club Next Saturday.

The first golf tournament of the
year will be played on the new links
of the Sedalia Country club next Sat-
urday, May 2, starting at 2 o'clock.

This being the first contest on the
new course, an effort will be made
to have all the golfers participate.
There will be no trouble about the
regular players; but the occasional
golfer will be urged to spend the af-
ternoon of May 2 on the links.

The inaugural tournament on all
links calls out a large list of players.
The tournament committee of the
Country club will urge as nearly a
complete list as possible for this
opening tournament of the season of
1908.

KNIGHT-MARSHALL HARDWARE COMP'Y

WILL THEY INSTRUCT?

New Jersey Democrats to Meet at
Trenton Tomorrow.

Trenton, N. J., April 27.—Present
appearances indicate the selection of
an uninstructed delegation to repre-
sent New Jersey democrats in the
Denver convention, a majority of the
delegates now here for tomorrow's
state convention favoring such action.

Considerable Gray sentiment has
developed and it is possible that an
attempt may be made to swing the
convention to the Delaware jurist.
Bryan has few devoted admirers in
New Jersey, and his chance of se-
curing the indorsement of tomorrow's
convention has practically vanished.

The action of the Delaware con-
vention in instructing for Gray and
of the New York convention in choos-
ing an unpledged delegation has given
renewed courage to the numerous
opponents of the Nebraskan in Jer-
sey, and they will likely be found
among the leaders of the Bryan op-
position at Denver.

Probably One-Half a Hundred Cars
Will Participate.

Norristown, Pa., April 27.—Arrang-
ements are practically completed for
the road contest of the Norristown
Automobile club tomorrow and the
event promises to be one of the
largest of its kind ever held in the
country.

Entries have been received from
nearly all the prominent manufac-
turers and nearly a half-hundred cars
will probably start. An informal au-
tomobile show will be held this even-
ing by the contestants.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this
country most dangerous because so decep-
tive. Many sudden
deaths are caused
by it—heart dis-
ease, pneumonia,
heart failure or
apoplexy are often
the result of kid-
ney disease. If
kidney trouble is
allowed to advance
the kidney poison-
ed blood will at-
tack the vital organs, causing catarrh
of the bladder, or the kidneys themselves
break down and waste away cell by cell.

Bladder troubles almost always result
from a derangement of the kidneys and
a cure is obtained quickest by a proper
treatment of the kidneys. If you are feel-
ing badly you can make no mistake by
taking Dr. Kilmer's Swamp-Root, the
great kidney, liver and bladder remedy.

It corrects inability to hold urine and
scalding pain in passing it, and over-
comes that unpleasant necessity of being
compelled to go often through the day,
and to get up many times during the
night. The mild and the extraordinary
effect of Swamp-Root is soon realized.
It stands the highest for its wonderful
cures of the most distressing cases.

Swamp-Root is pleasant to take and is
sold by all druggists in fifty-cent and
one-dollar size bottles. You may have a
sample bottle of this wonderful new dis-
covery and a book that tells all about it,
both sent free by mail. Address, Dr. Kil-

offer in this paper. Don't make any
mistake, but remember the name, Swamp-

IT'S A JOKE ON LAWRENCE

Students' Edition of a Daily Paper
Printed a "Joint" Directory.

Lawrence, Kan., April 27.—A
month ago J. L. Brady, editor of the
Lawrence Journal, offered to turn
his paper over to the class in jour-
nalism of the University of Kansas,
and the "Scoop" club, composed of
students who have had some experi-
ence in newspaper work, for one day.
Saturday was the day set for the ex-
periment.

Lawrence was not greatly interest-
ed at the prospect of a students'
edition of the paper. It was generally
supposed that the paper would smack
too much of the amateur to be any-
thing other than amusing.

At 4 o'clock Saturday afternoon the
paper came out with a list of about
twelve "joints" in the "East Bot-
toms," where beer and whisky were
sold, and also with a report of the
March sales of whisky and wines in
the drug stores of the town.

This "joint" directory was in the
first column of the first page under a
large head, and from the Kaw bridge
to the Indian school the students' pa-
per has been the principal topic of
conversation ever since.

POKER SHARKS GET \$5,000

Duluth Man Looking for Marked
Card's Owner.

Montreal, April 27.—Samuel Sleich-
mann, of Duluth, is in the city in
search of a man who he says robbed
him of \$5,000 in a card game.

Sleichmann claims that a meeting
with two other men in a hotel at Du-
luth one of the strangers suggested
a few hands at poker. This he agreed
to, but soon found that he was being
beaten out of every dollar he had.

After the game Sleichmann claims
he discovered the cards were marked.
He placed the case in the hands of
the Duluth police, but nothing being
done, he began the search himself.

The only clue for him to work on
was a letter addressed from one of
the card sharps to his wife in Mon-
treal. Sleichmann is confident he will
find the man.

THE ANTI-SALOON LEAGUE

RUMBLINGS OF THE RAIL

APPRENTICES ON THE SANTA FE ARE TO BE PRESENTED WITH TOOLS.

COACH, CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

An important announcement to the apprentice employees on the Santa Fe system has been made by F. W. Thomas, apprentice supervisor of the system.

There are four hundred apprentices employed by the Santa Fe and every one of them will be furnished a complete set of tools about the first of next month.

In addition to that they will be furnished uniform caps to wear in the shops and uniform buttons, so as to render it possible to distinguish them from the other classes employed.

The tools to be furnished the apprentices vary according to the different trades. The machinist apprentices will be furnished with a tool box containing calipers of different sizes, such as are used in their work from day day.

In addition to that there will be steel scales, surface gauges and other necessary tools. The equipment in each chest is valued at about \$17.

The tools to be furnished the cabinet maker apprentices consist of saws, chisels, planes and numerous other tools which are necessary in their work. This set of tools is estimated to cost about \$55.

The tools to be furnished to the apprentices of the other departments are few and inexpensive because most of the tools used by them are in the regular equipment in the tool rooms of the respective departments and are furnished to all classes of employees.

The recent regulations adopted by the Santa Fe officials prohibits the apprentices from smoking cigarettes. Boys addicted to this habit will not be employed under any condition and those who are in the employment at the present time are under discipline.

According to the statement of the apprentice supervisor and other officers on the Santa Fe, the boys who smoke cigarettes are nervous and cannot apply their minds to the work they are expected to do as well as the abstainers.

Another reason for adopting these regulations is because the boys will often hide away while on duty, in order that they can enjoy a smoke. Those who smoke cigars or pipes will not do this and their services are preferred.

Katy Equipment Order Deferred.

The order of the state railroad commission of Texas requiring the Missouri, Kansas & Texas Railroad company to purchase 165 new locomotives and 6,000 freight cars during the three years of 1908, 1909 and 1910, has been indefinitely postponed by that body.

The railroad company claims that it is now has ample supply of equipment to handle its traffic, and that it could not bear the financial burden of buying the locomotives and cars ordered by the commission.

Machinist at Death's Door.

Felix Brovsky, the Russian machinist, who has been ill for several days at the city hospital, is barely alive this afternoon.

Mrs. Nix, the matron, has not been able to learn anything regarding the patient beyond the fact that he came here ten days ago in a box car.

Several Russians have called upon the sick man with a view of learning something regarding his past, but he positively refused to unburden himself.

Settled Claim for \$4,500.

DYNAMITE WRECKS BRIDGE

Non-Union Construction Company Meets Fourth Disaster.

Fall River, Mass., April 27.—The new Bristol county steel bridge which is to connect this city and the town of Somerset, across the Taunton river, was badly damaged by a mysterious explosion of dynamite early Sunday. The bridge is being built for the county at a cost of \$750,000 and was to have been completed in two months. It is estimated that the loss to the contractors by the explosion will reach \$15,000.

The police investigation showed that a charge of at least fifty pounds of dynamite was placed on the granite pier nearest the Fall River shore and was fired by the use of a long fuse.

The entire north section of the city was shaken by the explosion and windows in nearly every house were smashed. The contractors who began the work on the bridge a year or more ago are Holbrook, Cabot & Rollins, of Boston. They employ non-union workmen.

The same firm has suffered three previous attempts to wreck bridges constructed by them in Baltimore, Philadelphia and the Bronx borough in New York.

Millionaire and His Wife Separated by Anonymous Letters.

Boston, Mass., April 27.—Seriously ill at the home of his parents in Boston, young Arthur W. Godfrey, millionaire lumber dealer, who was recently parted from his beautiful young wife, formerly Miss Beatrice Brainer, of Trenton, Mo., grieves over the estrangement, and it is said his condition is alarming.

His pretty bride, the beautiful singer whom he married less than a year ago, lives alone in apartments in a Boston hotel. She herself is heart-broken over their strange parting and the illness of Godfrey.

Cruel anonymous letters from the west are believed to have brought about the quarrel between Godfrey and his wife. A reconciliation was believed to have been effected, but the illness of the young millionaire at the home of his parents has proved the contrary.

THIEF TELLS DOOR GOODBY

Burglar Acts Like Departing Guest and Fools Watchman.

St. Louis, Mo., April 27.—By acting politely toward an empty doorway a burglar got away from a private watchman.

The burglar came out of the house of Andrew S. Hord, 4608 Arsenal street, just as the watchman was turning the corner.

"Good night," said the prowler, lifting his hat and looking back at the empty doorway.

The watchman, thinking the man was a departing guest, paid no attention.
